

THE STATE CAMPAIGN.

CULLING THE SENSI OF THE VOTERS

Meeting of the Democratic Executive Committee—The Norwood State Club in Session—The News from the Counties—The Constitutional Look in the South.

The Democratic Executive Committee

A meeting of the Democratic executive committee was held at the breakfast room of the Kimball house yesterday at one o'clock. Colonel L. N. Trammell, chairman, presided.

Mr. J. H. Mitchell, of Pike county, tendered his resignation as a member, action which was postponed.

A communication from E. T. Ryding, secretary Fort Valley Norwood club, was read.

A communication from Dr. Remis, of Indiana, was referred to the finance committee.

The committee on business, Messrs. Hawkins, Hardeman, A very poor shumate and New- man, made its report through Colone Hawkins, chairman.

The committee recommended the adoption of the following resolution:

Resolved, that we, the members of the meeting, in session, do hereby, in the name of the people of Georgia, who were then in vigorous health, do hereby, in the name of the people of Georgia, Resolved, That in the death of the said Hon. W. L. Lowry, we deeply deplore his loss, and that we, the people of Georgia, distinguished for integrity, public spirit, and capacity, will regret his departure, and that we, the people of Georgia, in memory of his worth and excellence.

This resolution was published, and that a copy be sent to his family.

Which was unanimously adopted.

2. The committee recommended the following re-solution:

It being the opinion of this committee that the majority rule should obtain in all nominations for state offices, it is resolved, that the election of delegates to state convention be by primary election.

Resolved further, That in said primary each voter endorse on his ballot his choice, majority rule, and that the same be given to the committee of each county forward the number of votes cast for each rule to the state executive committee, and that the same be forwarded to the state committee, so that the state committee may have a majority of the votes so indicated, and that the same be sent to the convention as the rule for the nomination of state officers.

Which resolution was adopted.

3. The committee recommended that the democratic newspapers of the state be requested to re-visit the oral ticket by the following, in order that some slight errors now existing may be corrected:

Electors for the State at Large—James C. Black of Richmond; Richard E. Kenon, of Atlanta; Luther J. Glenn, of Fulton; A. Pratt Adair, of Chattooga; Samuel D. Bradwell, of Liberty.

4. The committee recommended that the following candidates be nominated for state offices:

Entered as second-class matter, at the Atlanta post-office, December 11, 1879.

ATLANTA, GA., AUGUST 27 1880.

Mr. W. L. Lane, of Worth county, has been nominated for the senator in the tenth district.

In his Columbus speech, Governor Smith dwelt with eloquent earnestness upon the dangers that threaten the democratic party; but he took good care not to show how easily it would have been for the fragmentary minority to heel all dissensions and prevent all division by acquiescing in the will of the people.

The cotton operatives, of Roachdale, England, after maintaining a strike six weeks, have submitted to a reduction of five per cent in their wages and gone to work. The mills of the world are getting ready to turn the new crop into the thousand different articles for which there is every part of the world a good demand.

Governor Smith, in his Atlanta speech, did not find it convenient to refer critically to Governor Colquitt's reply to the anonymous slanders used by Mr. Norwood. The most important statement made by Governor Smith was to the effect that he would not resign his office until Mr. Norwood could appoint his successor. The people are thus assured that they will have the benefit of Governor Smith's wisdom and experience for many years to come.

Mr. Edward Atkinson's proposition in favor of the holding of a great cotton exhibition is well received and commended both in the east and south. We hope he will take steps to put the project in more practical shape. Richmond or Atlanta would be a better point for the proposed exhibition than New York, so far as the planters are concerned; but it might not be possible to secure the co-operation of northern manufacturers if it were held in the far south. At any rate, let us have the exhibition, and we will not quarrel over the location question.

To-day the democratic state executive committee of New York will hold a meeting to decide whether or not they will call a convention to nominate a candidate for chief justice of the highest court of the state. The Tammany democrats have already called a convention. The regular democrats should not permit pride or prejudice to interfere with any action that may be necessary to secure the hearty co-operation of the 80,000 voters who recognize the authority of Tammany hall. They are good democrats, and delays are dangerous when a common foe is desperately striving to retain its ill-gotten power.

The New York Times and Philadelphia Times—neither democratic and both influential in business circles—agree in declaring that the present tariff cannot stand. The New York journal says it is "a tariff of favoritism towards others," its Philadelphia namesake says it is "incongruous, disjointed and full of abuses. Both of these papers are in favor of a protective tariff, and their patrons are to a great extent high-tariff advocates; but they are too candid and far-sighted to sustain the popular view that the present tariff is to be hoped for. Price will inquire in his vigorous and incisive way, why it is that governments cannot issue legal tender based solely on the right and power to tax?

The North American Review is illustrated with two types of caricature, one showing much about the gubernatorial race in Fulton county except to publish day after day the names of the most prominent men in the county who having formerly been against Governor Colquitt have now become his supporters.

We have uttered no protest against the wild claims that the county would be carried for Norwood 1,500 or 2,000 majority, but since the inquiry has been made as to why the capital county is against Governor Colquitt, we do not hesitate to give our opinion. We do not believe that Mr. Norwood will carry Fulton county at all—but on the contrary we believe that it will give Governor Colquitt a decided majority.

It is quite probable that the hotel corridors and the street corners, if polled at any time, will give a Norwood majority; but when the whole county, merchants, mechanics, countrymen and all, is to be hoped the editor, Mr. Allen Thorne, will carry it. We do not mean, by the above, that Mr. Norwood has not a good support among the merchants and mechanics, but to simply insist that the Norwood men in Fulton are, as a class, noisier and more conspicuous than the Colquitt men. The Colquitt men, for instance, had no club meetings, and no ward speakings. But there is a central committee for the county at work, with a sub-committee of five in every ward and precinct, and they are canvassing the shops, stores and houses. There are new votes made for Colquitt daily, and the tide grows stronger constantly. When the time for voting comes, it will be seen that the Colquitt men of Fulton have done their full duty.

To Fulton County. We have refrained from saying much about the gubernatorial race in Fulton county except to publish day after day the names of the most prominent men in the county who having formerly been against Governor Colquitt have now become his supporters.

Tom Hughes in Tennessee. The arrival of Mr. Thomas Hughes, the distinguished author, who is as much at home in political science as in the pleasure realm of historical fiction, has created a considerable sensation throughout the country. He is accompanied by two or three live lads, an ear or so, and several other gentlemen who are well known in their own land. But the attention they are attracting does not so much relate to them personally, but to the mission which they have come here to inaugurate with all the force that their own positions at home can give it. This mission assumes a corporate form under the somewhat formidable and decidedly English title, "The Board of Aid to Land Ownership." Mr. Hughes is chairman of the board, and several members of the nobility are associated with him. The students are dead, however, and it is not to be expected that the curriculum of the institution will be revised so as to include utilitarian knowledge.

located in England, where a capital of \$750,000 has been secured. The association has purchased 400,000 acres of land in Morgan, Scott, Overton and Fentress counties, in Tennessee, the central point of the vast tract being about seven miles from the line of the Cincinnati Southern road, with which it is to be connected by a branch railroad. The whole tract is situated on the Cumberland plateau, and is in every respect well adapted to the purpose for which it is designed. It is proposed, to use Mr. Hughes' own language, to have the land settled by the tenant farmers of England who suffer under the present system of land tenure, and by the sons of gentry and nobility to do tradesmen and manufacturers for whom there is no employment in England because of the excessive population and the overcrowding of all the trades and professions. It is not the intention to open this tract to settlement by the impoverished class; it is a co-operative movement, but it is neither of a philanthropic nor speculative nature. The land will be disposed of at a fair price, and every effort made to give the new community the advantages of civilization—to save them from the discontents and dangers of frontier life. Mr. Hughes and his associates will formally open the land to settlement on the 14th day of next month, when the firstnamed will in an address set forth its advantages and the plan of colonization.

This project will fail, because it is supported by men of abundant means and abundant sense. It will be fully carried out, and it promises great good must flow from it, not only to the four countries most directly interested, but to all the upland region of the far south. This section has been selected after the most careful and comprehensive survey of the English colonies and of the western portions of this country. Its climate, productions and markets were found to be more promising than those of all other sections opened to settlement. It was preferred for the purposes of English emigration to Australia, Canada, South America or other parts of North America. Our own claims for this section have been upheld in every particular, and we have the fullest confidence that the new settlers will prove the forerunners of thousands more from their own class. Fortunately, these people will come to this country in a way that will not leave them open to the appeals of railroad agents and other professional emigrant hunters from the northwest; nor will the falsehoods of politicians have any effect upon them. They will go to Tennessee upon statements made by Mr. Hughes and his associates, and once there they will be able to judge of the situation both for themselves and their friends at home. The movement is full of promise, and we heartily welcome its approaching inauguration.

Notes of Newsmagazines. Mr. Henry Austin, of Baltimore, contributor to the current number of the International Review, on the late Horace Timrod, was so hurriedly written, because it would perhaps injure to characterize the article as inadequate. It is appropriate from beginning to end, but something seems lacking. Of the few southern versemakers of reputation, Timrod is perhaps the only one who has any substantial claim upon posterity. He possessed all the qualities of a great poet, but poverty and death left him no opportunity to round and complete his work. His editors have not been happier than his reviewers, for the editor of his poems issued under the auspices of Mr. Paul H. Hayne, is incomplete. Nevertheless, it is a credit to Mr. Austin to print this tenderly appreciative article on Timrod that should be admitted into a Boston magazine in the nature of a victory of mind over matter.

Mr. Benney Price's essay on "Money," with which the Review opens, is exceedingly interesting, notwithstanding its narrowness of scope. It is a brilliant article on celestial dynamics from the pen of Dr. C. B. Waring. It is entitled, "The Solar System and its Neighbors." It is a fine, frank, original article, and will be of great interest to the public.

—The Atlantic Monthly has a very interesting article on the "Rise of the South," by Mr. George L. Watson, which is to be published in the October number.

—Lyman Beecher's article on "Prayer" is an excellent one. Monday, for instance, is an apt day to pray.

—A very interesting article on Timrod

Tutte's "Exponent" is probably administered by Mr. George L. Watson, and it is to be hoped that the Norwood man from Utica will not prevent them from retailing the anonymous slanders which the governor so effectively disposed of.

The Albany Advertiser says the telegram Dr. Felton was prompted by a desire to present the name of the great independent to the convention for the sake of securing harmony. The Atlanta Telegraph, the leading Norwood paper, says the telegram was written for the purpose of frightening the majority. One of the gentlemen who signed it says it was sent after the convention had recommended Governor Colquitt to the people. The telegram itself, as far as Dr. Felton's reply, is dated Tuesday.

Tutte's "Exponent" is probably administered by Mr. George L. Watson, and it is to be hoped that the Norwood man from Utica will not prevent them from retailing the anonymous slanders which the governor so effectively disposed of.

IN GENERAL. —

The capital of Armour & Co., the Chicago packers is \$10,000,000.

—Major Prince is confident of a Hancock majority of 10,000,000, and he is right.

—Lyman Beecher's article on "Prayer" is an excellent one. Monday, for instance, is an apt day to pray.

—A very interesting article on Timrod

should be admitted into a Boston magazine in the nature of a victory of mind over matter.

Mr. Benney Price's essay on "Money," with which the Review opens, is exceedingly interesting, notwithstanding its narrowness of scope. It is a brilliant article on celestial dynamics from the pen of Dr. C. B. Waring. It is entitled, "The Solar System and its Neighbors." It is a fine, frank, original article, and will be of great interest to the public.

—The Atlantic Monthly has a very interesting article on the "Rise of the South," by Mr. George L. Watson, which is to be published in the October number.
